Table of Contents

1	Summary	1-1
1.1	Whatcom Waterway Project Background.....	1-1
1.2	Overview of the Bellingham Bay Demonstration Pilot and the Bellingham Bay Comprehensive Strategy	1-3
1.3	Role of the Current EIS.....	1-5
1.3.1	Proposed Action and EIS Regulatory Role.....	1-5
1.3.2	Relationship to Previous EIS Documents	1-5
1.3.3	SEPA Lead Agency	1-6
1.3.4	Relationship to Land Use Planning Process	1-6
1.3.5	Future Environmental Reviews and Permitting.....	1-6
1.4	Significant Areas of Controversy and Uncertainty	1-7
1.5	SEPA Evaluation of Project Alternatives	1-7
1.5.1	Elements of the Environment.....	1-7
1.5.2	SEPA Evaluation of Alternatives.....	1-8
1.6	Pilot Evaluation of Alternatives.....	1-16
2	Project Background.....	2-1
2.1	Whatcom Waterway Site History	2-1
2.1.1	Site-Area History	2-1
2.1.2	The 2000 RI/FS and EIS	2-2
2.1.3	Log Pond Interim Action	2-3
2.1.4	Supplemental Investigations	2-4
2.1.5	Purchase of GP Mill Site by Port of Bellingham.....	2-5
2.2	History of the Bellingham Bay Pilot and Comprehensive Strategy ..	2-5
2.2.1	Initial Development of the Pilot Concept	2-6
2.2.2	The Pilot Team and its Scope of Work	2-7
2.2.3	Bellingham Bay Comprehensive Strategy	2-8
2.2.4	Recent Changes Affecting the Project	2-10
2.3	Role of the Current EIS.....	2-11
2.3.1	Proposed Action and EIS Regulatory Role.....	2-11
2.3.2	Relationship to Previous EIS Documents	2-11
2.3.3	SEPA Lead Agency	2-12
2.3.4	Relationship to Land Use Planning Processes	2-12
2.3.5	Future Environmental Reviews and Permitting	2-13
2.4	Introduction to Sediment Cleanup Laws and Techniques	2-14
2.4.1	Sediment Cleanup Laws	2-14
2.4.2	Site Cleanup Levels	2-15
2.4.3	Sediment Cleanup Techniques.....	2-17
3	Description of Affected Environment.....	3-1
3.1	Overview of Environmental Features	3-1
3.1.1	Elements of the Environment.....	3-1
3.1.2	Whatcom Waterway Site Units.....	3-2
3.2	Geology, Water, and Environmental Health.....	3-5
3.2.1	Overview of Key Issues	3-5

Table of Contents

3.3	3.2.2 Issues by Site Area.....	3-17
	Fish and Wildlife.....	3-24
	3.3.1 Overview of Key Issues	3-24
	3.3.2 Environmental Characteristics by Site Area	3-38
3.4	Land Use, Navigation, and Public Shoreline Access.....	3-40
	3.4.1 Overview of Key Issues	3-40
	3.4.2 Land Use, Navigation, and Shoreline Issues by Site Area ..	3-47
3.5	Air and Noise	3-54
	3.5.1 Overview of Key Issues	3-54
	3.5.2 Air and Noise Issues by Site Area ..	3-56
3.6	Cultural Resources	3-57
	3.6.1 Overview of Key Issues	3-57
	3.6.2 Archaeological or Historical Resource Issues by Site Area	3-61
4	SEPA Analysis Project Alternatives.....	4-1
4.1	Project No Action Alternative	4-2
	4.1.1 Alternative Description.....	4-2
	4.1.2 Impacts, Benefits and Mitigation.....	4-3
4.2	Project Alternative 1	4-6
	4.2.1 Alternative Description.....	4-6
	4.2.2 Impacts, Benefits and Mitigation.....	4-9
4.3	Project Alternative 2	4-13
	4.3.1 Alternative Description.....	4-13
	4.3.2 Impacts, Benefits and Mitigation.....	4-17
4.4	Project Alternative 3	4-22
	4.4.1 Cleanup Description.....	4-22
	4.4.2 Impacts, Benefits and Mitigation.....	4-27
4.5	Project Alternative 4	4-31
	4.5.1 Cleanup Description.....	4-32
	4.5.2 Impacts, Benefits and Mitigation.....	4-35
4.6	Project Alternative 5	4-40
	4.6.1 Cleanup Description.....	4-40
	4.6.2 Impacts, Benefits and Mitigation.....	4-44
4.7	Project Alternative 6	4-49
	4.7.1 Cleanup Description.....	4-49
	4.7.2 Impacts, Benefits and Mitigation.....	4-51
4.8	Project Alternative 7	4-54
	4.8.1 Cleanup Description.....	4-54
	4.8.2 Impacts, Benefits and Mitigation.....	4-55
4.9	Project Alternative 8	4-60
	4.9.1 Cleanup Description.....	4-60
	4.9.2 Impacts, Benefits and Mitigation.....	4-62
5	Pilot Comparative Evaluation of Remedial Alternatives.....	5-1
5.1	Seven Baywide Pilot Goals.....	5-1
5.2	Pilot Evaluation of Alternatives.....	5-2

Table of Contents

5.2.1	No Action Alternative.....	5-3
5.2.2	Alternative 1.....	5-4
5.2.3	Alternative 2.....	5-5
5.2.4	Alternative 3.....	5-6
5.2.5	Alternative 4.....	5-7
5.2.6	Alternative 5.....	5-8
5.2.7	Alternative 6.....	5-9
5.2.8	Alternative 7.....	5-11
5.2.9	Alternative 8.....	5-12
5.3	Conclusions of Pilot Evaluation.....	5-13
